

CERTIFICATE

STATE ENTERPRISE
CERTIFICATION BODY OF AUTOMATED AND AUTOMATIC
CONTROL SYSTEMS AND TRANSPORTATION PROCESS
MANAGEMENT RAILWAY TRANSPORT
certifies that

KHARKIV NATIONAL AUTOMOBILE AND HIGHWAY UNIVERSITY

st. 25 Yaroslava the Wise Street, Kharkiv, Ukraine, 61002
EDRPOU code 02071168

implemented and uses a quality management system
Regarding the field of activity:

**Educational services at three levels of education
by specialties specified in the Appendix**

Audit, report No. 01-05-2025/SU
confirmed that the requirements

ISO 9001:2015

Quality management systems. Requirements

Performed.

Control of compliance of the certified quality management system with the requirements of the specified standard is carried out by means of periodic surveillance audits in accordance with schedule of supervisory audits No. 01-05-2025/SU dated on 20.02.2025

Certificate registration number

No. 5.097.005-25

Effective from

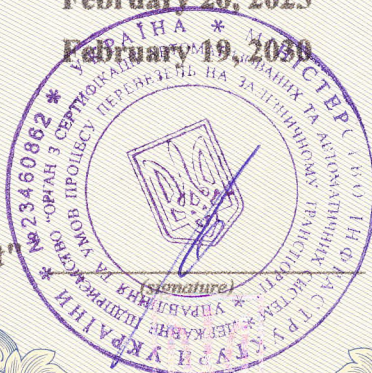

February 20, 2025

Valid until

February 19, 2030

Head of the enterprise
SE "Certification Body
of the Automated Control
and transportation process
management railway transport"

MP

Viktor SOKOLOV

LIST OF SPECIALTIES FOR AN EDUCATIONAL DEGREE PH.D.

№	Specialty 2024	Name of the educational program	Field of Knowledge	Specialty according to the list of 2025
1	051 Economy	Economics	C Social Sciences, Journalism and Information	C1 Economics
2	073 Management	Management of organizations and logistics	D Business, Administration and Law	D3 Management
3	101 Ecology	Ecology and environmental protection	E Natural Sciences, Mathematics and Statistics	E2 Ecology
4	122 Computer Science	Information control systems and technologies	F Information Technology	F3 Computer Science
5	132 Materials Science	Materials Science	G Engineering, Manufacturing and Construction	G8 Materials Science
6	133 Industrial Engineering	Hoisting and transporting, construction, road, reclamation machines and equipment	G Engineering, Manufacturing and Construction	G11 Mechanical Engineering
7	142 Power Engineering	Power Engineering	G Engineering, Manufacturing and Construction	G11 Mechanical Engineering
8	192 Construction and Civil Engineering	Roads and airfields	G Engineering, Manufacturing and Construction	G19 Construction and Civil Engineering
9	274 Road transport	Road transport	J Transportation and Services	J8 Road transport
10	275.03 Transport technologies (in road transport)	Transport technologies (in road transport)	J Transportation and Services	J8 Road transport

Head of the enterprise

February 20, 2025

LIST OF SPECIALTIES FOR AN EDUCATIONAL DEGREE MASTER

№	Specialty 2024	Name of the educational program	Field of Knowledge	pecialty according to the list of 2025
1	015.32 Vocational education. Electronics, Metrology and Radio Telecommunications	Vocational education. Metrology, Standardization and Certification	A Education	A5 Vocational education
2	015.38 Vocational education. Transport	Vocational education. Transport	A Education	A5 Vocational education
3	051 Economy	Economics	C Social Sciences, Journalism and Information	C1 Economics
4	071 Accounting and taxation	Accounting and taxation	D Business, Administration and Law	D1 Accounting and taxation
5	073 Management	Management of organizations and administration	D Business, Administration and Law	D3 Management
6	076 Entrepreneurship and Trade	Entrepreneurship, trade and exchange activities	D Business, Administration and Law	D7 Trading
7	101 Ecology	Environmental safety	E Natural Sciences, Mathematics and Statistics	E2 Ecology
8	122 Computer Science	Computer Science	F Information Technology	F3 Computer Science
9	131 Applied Mechanics	Computer Engineering of Mechanical Engineering and Machine Repair Technologies	G Engineering, Manufacturing and Construction	G9 Applied Mechanics
10	132 Materials Science	Materials Science	G Engineering, Manufacturing and Construction	G8 Materials Science
11	133 Industrial Engineering	Hoisting and transporting, construction, road, reclamation machines and equipment	G Engineering, Manufacturing and Construction	G11 Mechanical Engineering

003961

12	133 Industrial Engineering	Automotive	G Engineering, Manufacturing and Construction	G11 Mechanical Engineering
13	141 Electric Power Engineering, Electrical Engineering and Electromechanics	Electric vehicles and energy-saving technologies	G Engineering, Manufacturing and Construction	G3 Electrical Engineering
14	142 Power Engineering	Internal combustion engines	G Engineering, Manufacturing and Construction	G11 Mechanical Engineering
15	174 Automation, Computer-Integrated Technologies and Robotics	Automated process control	G Engineering, Manufacturing and Construction	G7 Automation, Computer-Integrated Technology and Robotics
16	175 Information and Measurement Technologies	Intelligent information and measurement technologies	G Engineering, Manufacturing and Construction	G6 Information and Measurement Technology
17	192 Construction and Civil Engineering	Roads and airfields	G Engineering, Manufacturing and Construction	G19 Construction and Civil Engineering
18	192 Construction and Civil Engineering	Bridges and transport tunnels	G Engineering, Manufacturing and Construction	G19 Construction and Civil Engineering
19	192 Construction and Civil Engineering	Technology of production of building and road-building materials and products	G Engineering, Manufacturing and Construction	G19 Construction and Civil Engineering
20	193 Geodesy and Land Management	Engineering Geodesy	G Engineering, Manufacturing and Construction	G18 Geodesy and Land Management
21	274 Road transport	Road transport	J Transportation and Services	J8 Road transport
22	275.03 Transport technologies (in road transport)	Organization of transportation and management in road transport	J Transportation and Services	J8 Road transport
23	275.03 Transport technologies (in road transport)	Transport systems and logistics	J Transportation and Services	J8 Road transport
24	275.03 Transport technologies (in road transport)	Organization and safety of road traffic	J Transportation and Services	J8 Road transport

A total of 24 specialties

**Head of the enterprise
SE "Certification Body
of the Automated Control
and transportation process
management railway transport"**

LIST OF SPECIALTIES FOR AN EDUCATIONAL DEGREE BACHELOR

№	Specialty	Name of the educational program	Field of Knowledge	Specialty according to the list of 2025
1	015.32 Vocational education. Electronics, Metrology and Radio Telecommunications)	Vocational education. Metrology, Standardization and Certification	A Education	A5 Vocational education
2	015.38 Vocational education. Transport	Vocational education. Transport	A Education	A5 Vocational education
3	022 Design	Environment design	B Culture, Arts and Humanities	B2 Design
4	035.10 Philology (Applied Linguistics)	Philology (Applied Linguistics)	B Culture, Arts and Humanities	B11 Philology
5	051 Economy	Economics	C Social Sciences, Journalism and Information	C1 Economics
6	071 Accounting and taxation	Accounting and taxation	D Business, Administration and Law	D1 Accounting and taxation
7	073 Management	Management of organizations and logistics	D Business, Administration and Law	D3 Management
8	075 Marketing	Marketing	D Business, Administration and Law	D5 Marketing
9	076 Entrepreneurship and Trade	Entrepreneurship, trade and exchange activities	D Business, Administration and Law	D7 Trading
10	101 Ecology	Ecology and environmental protection	E Natural Sciences, Mathematics and Statistics	E2 Ecology
11	121 Software Engineering	Software systems	F Information Technology	F2 Software Engineering
12	122 Computer Science	Information control systems and technologies	F Information Technology	F3 Computer Science

003958

13	131 Applied Mechanics	Applied mechanics	G Engineering, Manufacturing and Construction	G9 Applied Mechanics
14	132 Materials Science	Materials Science	G Engineering, Manufacturing and Construction	G8 Materials Science
15	133 Industrial Engineering	Hoisting and transporting, construction, road, reclamation machines and equipment	G Engineering, Manufacturing and Construction	G11 Mechanical Engineering
16	133 Industrial Engineering	Automotive	G Engineering, Manufacturing and Construction	G11 Mechanical Engineering
17	141 Electric Power Engineering, Electrical Engineering and Electromechanics	Electric vehicles and automotive electronics	G Engineering, Manufacturing and Construction	G3 Electrical Engineering
18	142 Power Engineering	Power Engineering	G Engineering, Manufacturing and Construction	G11 Mechanical Engineering
19	161 Chemical Technology and Engineering	Chemical technologies in construction	G Engineering, Manufacturing and Construction	G1 Chemical Technology and Engineering
20	174 Automation, Computer-Integrated Technologies, and Robotics Technologies	Automation and Computer-Integrated Technologies	G Engineering, Manufacturing and Construction	G7 Automation, Computer-Integrated Technology and Robotics
21	175 Information and Measurement Technologies	Information and measurement technologies	G Engineering, Manufacturing and Construction	G6 Information and Measurement Technology
22	192 Construction and Civil Engineering	Roads and airfields	G Engineering, Manufacturing and Construction	G19 Construction and Civil Engineering
23	192 Construction and Civil Engineering	Bridges and transport tunnels	G Engineering, Manufacturing and Construction	G19 Construction and Civil Engineering
24	193 Geodesy and Land Management	Geodesy and land management	G Engineering, Manufacturing and Construction	G18 Geodesy and Land Management
25	274 Road transport	Road transport	J Transportation and Services	J8 Road transport
26	275.03 Transport technologies (in road transport)	Transport technologies (in road transport)	J Transportation and Services	J8 Road transport

A total of 26 specialties
